EUA2012A

## 2.5-W/CH Stereo Filter-less Class-D

## Audio Power Amplifier with Auto-Recovery

## DESCRIPTION

The EUA2012A is a high efficiency, $2.5 \mathrm{~W} /$ channel stereo class-D audio power amplifier. A low noise, filterless PWM architecture eliminates the output filter, requiring only two external components for operation.

Operating from a single 5V supply, EUA2012A is capable of delivering $2.5 \mathrm{~W} /$ channel of continuous output power to a $4 \Omega$ load with $10 \%$ THD + N.

The EUA2012A features independent shutdown controls for each channel. The gain can be selected to $6,12,18$, or 24 dB utilizing the G0 and G1 gain select pins. High PSRR and differential architecture provide increased immunity to noise and RF rectification.

The EUA2012A is available in space-saving WCSP, TQFN and TSSOP packages, is an idea choice for mobile phones and other portable communication devices.

## FEATURES

- Low EMI Emission
- Output Power By TQFN Package
- $2.5 \mathrm{~W} / \mathrm{Ch}$ Into $4 \Omega$ at 5 V
- $1.6 \mathrm{~W} / \mathrm{Ch}$ Into $8 \Omega$ at 5 V
- $800 \mathrm{~mW} / \mathrm{Ch}$ Into $8 \Omega$ at 3.6 V
- Wide Supply Voltage: 2.5 V to 5.5 V
- Independent Shutdown Control for Each Channel
- Selectable Gain of $6,12,18$ and 24 dB
- High PSRR :63dB at 217 Hz
- Fast 34ms Startup Time
- Low 5mA Quiescent Current at 3.6 V Supply and $1.5 \mu \mathrm{~A}$ Shutdown Current
- Short-Circuit Auto-Recovery and Thermal Protection
- Space Saving Packages
- $4 \mathrm{~mm} \times 4 \mathrm{~mm}$ TQFN-20 package
- $2 \mathrm{~mm} \times 2 \mathrm{~mm}$ WCSP-16 package
- TSSOP-20 package
- RoHS Compliant and $100 \%$ Lead(Pb)-Free, Halogen-Free

## APPLICATIONS

- Wireless or Cellular Handsets and PDAs
- Portable Audios
- Notebook PC

## Typical Application Circuit
